Environmental Policy Statement

We are committed to conducting our business in a manner that minimizes our environmental impact and promotes sustainability. Our goal is to achieve a balance between our economic, social, and environmental responsibilities, ensuring that we contribute positively to the communities we serve and the global environment.

Key Objectives

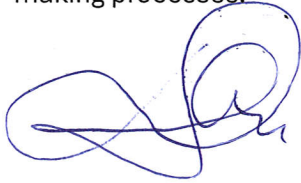

1. **Compliance:** Adhere to all applicable environmental laws, regulations, and standards in all regions where we operate.
2. **Resource Conservation:** Implement measures to reduce energy consumption, water usage, and waste generation. Promote the efficient use of resources and the reduction of emissions.
3. **Waste Management:** Establish effective waste management practices that prioritize the reduction, reuse, and recycling of materials. Ensure proper disposal of hazardous waste.
4. **Sustainable Procurement:** Source materials and services that are environmentally responsible and sustainable. Encourage suppliers and contractors to adopt similar environmental standards.
5. **Pollution Prevention:** Prevent pollution by reducing emissions, discharges, and releases of harmful substances into the environment. Implement measures to mitigate any potential environmental impacts.
6. **Environmental Awareness:** Foster a culture of environmental awareness among employees, stakeholders, and the community. Provide training and resources to enhance understanding and responsibility towards environmental stewardship.
7. **Continuous Improvement:** Regularly review and update our environmental policies and practices to reflect new technologies, scientific findings, and regulatory changes. Strive for continuous improvement in our environmental performance.
8. **Innovation and Technology:** Invest in research and development to create and adopt innovative technologies and practices that enhance environmental sustainability.
9. **Green Building Practices:** Incorporate sustainable design and construction practices in our projects to reduce environmental impact and promote energy efficiency.
10. **Biodiversity Protection:** Protect and enhance biodiversity in areas affected by our operations. Implement measures to conserve natural habitats and wildlife.
11. **Community Engagement:** Engage with local communities to understand their environmental concerns and work collaboratively to address them. Support community initiatives aimed at environmental conservation and education.

12. Climate Action: Support initiatives to reduce greenhouse gas emissions and mitigate climate change. Develop and implement strategies to adapt to the impacts of climate change on our operations.

13. Transparency and Reporting: Maintain transparency in our environmental practices and regularly report on our environmental performance. Communicate our progress and challenges to stakeholders.

14. Employee Involvement: Encourage and empower employees to participate in environmental initiatives and sustainability programs. Recognize and reward contributions towards achieving our environmental goals.

15. Leadership Commitment: Ensure that senior management demonstrates leadership and commitment to environmental sustainability by integrating it into strategic planning and decision-making processes.
